Dean, Doctor of
Medical Sciences,
Professor
Igor V. Belozarov

Creation of the School of Medicine in V. N. Karazin Kharkiv National University took place at the same time with a foundation of University on the 17th of January in 1805 that makes the School of Medicine one of the oldest medical high educational institutions in Ukraine and Eastern Europe. The School gave the outstanding scientist-physicians and expert doctors: therapist D. F. Lyambli, surgeries P. M. Shumlyanskiy, V. F. Hrube, M. P. Trinkler, obstetrician I. P. Lazarevich, ophthalmologist L. L. Hirshman, physiologist V. Y. Danilevskiy and others.

As a part of Karazin University the School of Medicine revived in March 1993. Since that time the School has passed a way of active development and improvement, raised up the quality of high medical education to the European level and prepared thousands of doctors and

scientists who work now in Ukraine and abroad.

The School of Medicine provides the students with the opportunity to get the high medical education in the classical university, a necessary and essential component of which is the academic triad - the unity of education, science and clinical practice. Undoubtedly, only classical university which has developed base of teaching and studying biomedical and natural disciplines can provide perfect conditions for creating and improvement clinical, scientific and medical thinking of future doctors by using of a powerful scientific and pedagogical potential of other schools of the University: biological, chemical, physics and mathematics and others. Studying in Karazin University gives the students an opportunity to get one more high education at the same time in the field of economics, management, law,

psychology, mathematics, foreign languages and so on.

Main building of Karazin University

Nowadays the School is one of the leading in preparation specialists in educational and qualification level “Master of Medicine” on specialty 222 “Medicine” in the field of knowledge 22 “Health care” (certificate РД-iv №219309 but license AB №498462 from 25.11.2009). Preparation of more than 3700 of students from 40 countries in the world (Africa, Asia, Middle East, etc.) is carried out in Ukrainian and Russian (for Russian speaking foreign students) and in English on 11 schools. Teaching of all disciplines is performed according to the advanced programs, recommended by Ministry of Health Care (MHC) and Ministry of Education and Science of Ukraine, and after graduation the students get diploma of the state sample (in Ukrainian and English) with the annex to the diploma of the international sample (diploma supplement), which are filled in according to the demands of European committee, the Council of Europe, and UNESCO-CEPES. The diploma of the School of Medicine of Karazin University provides the graduates with the opportunity to pass clinical practice in all medical specialties after

internship except for stomatology and medical and preventive case (order of MHC of Ukraine №621 from 21.11.2005).

High quality of higher medical education is reached by means of combination of classical university approaches and innovative technologies. Leading specialists in their branches conduct teaching activity at the School of Medicine, among them there are more than 40 professors, doctors of medical sciences, and 180 associate professors, candidates of medical sciences, honored doctors and scientists and technicians of Ukraine, winners of state and international awards. Average experience in teaching activity of pedagogical staff of the Schools over 12 years. Teaching process of all disciplines is held according to the demands of Bologna Process and the level of the methodical support of disciplines is equal to 100%. All scientifically pedagogical employees annually pass numerous advanced training courses which allows to maintain a quality of education on the highest level.

Practical training at the Department of Obstetrics and Gynecology

The School members perform a huge amount of clinical and therapeutic work with the active involvement of their students in leading medical institutions of Ukraine which are the clinical bases of the School and among which is I. I. Mechnikov
