

## **The School of Medicine of V. N. Karazin Kharkiv National University (Admissions Information)**

The School of Medicine of V. N. Karazin Kharkiv National University is a unit of higher educational institution of state ownership; its purpose is to prepare high quality doctors of European level with educational qualification of "Master of medicine", specialization № 222 "Medicine". The School of Medicine provides its students an opportunity to receive higher medical education in the classical university with an expanded amount of fundamental knowledge and a combination in educational process of traditional and innovative approaches to educational process. A necessary and essential element of higher medical education of our University is the Academic Triad - the unity of education, science and clinical practice.

***Details about the school, its divisions, mission and activities you may found on the official website at the link***

<http://medicine.karazin.ua>

**Historical reference.** During the foundation of Karazin University in 1805, the School of Medicine was among the first schools, which makes modern school of medicine of V. N. Karazin Kharkiv National University one of the oldest and glorious higher educational institutions in Eastern Europe. Modern school was reborned as part of the university in 1992.

**Schools nowadays.** Nowadays the school is one of the leading higher educational institutions of Ukraine, a powerful scientific, clinical and methodological center. 13 academic departments organized at the school, scientific and educational activities carried out by 39 doctors of medicine, professors and 150 candidates of medicine.

More than 4,500 students from 60 countries study in Ukrainian, Russian (for Russian-speaking foreigners) and English at the School.

During the existence of reborned school thousands of physicians were trained who have a successful clinical practice in 65 countries. More than 60 graduates have received academic degrees of candidates and doctors of medicine.

Clinical school bases - 26 leading clinics and specialized research institutes, known for their potential far beyond the borders of Ukraine.

The staff of the school defended more than 100 theses and published more than 4,000 scientific articles. The School carried out more than 150 research and practical conferences, including international one.

At the school Scientific Community of students, graduates, postgraduates, doctoral students and young scientists was created, which provides an opportunity for students-scientists to implement their scientific potential during the training. It is still successfully functioning.

Dean of the School is Doctor of Medicine, Professor Igor V. Belozerov.

**The School in ratings of higher education institutions.** In 2018 the School of Medicine as a part of V. N. Karazin Kharkiv National University, according to the international system of ranking of higher education institutions, is included in top 300 best universities of the world (the only one from all medical universities of Ukraine) and in top three educational institutions of Ukraine (the only one from all medical universities of Ukraine) and is one of the best universities in Europe.

**Studies at the School.** Teaching of students of the School of Medicine carried out according with standard advanced training programs within regulated standards and is approved by the Ministry of Education and Science of Ukraine and the Ministry of Health of Ukraine.
