Good morning mam, I hope this mail finds you well!!

This mail is just a token of love for all your efforts and hardwork you have put in to this week, coming from such a long distance ( kharkiv) to here to take our classes, is quite remarkable!!

I really thank you because it's not an easy job to come here and settle in a new place, leaving your family for a week!! Thank you so much for guiding and teaching us like your own kids and all the practicals by Golobko mam, and all the krok teachings by Sevchenko mam is really commendable, which was impossible for us the last years!!

You three are the gems with profound of knowledge, I wish you could teach us a little earlier so that we would have been a giant in the subject by the time!!

I am sure you must be acing at your own fields in the hospital and wishing you the best for your life.. Thanks for sharing your knowledge and guidance and thanks for being here with us and guiding for krok examination!!

All the good wishes to three of you!!

Take care and Have a safe journey!!

Regards,

Smaraki Mishra (BA- 604)
