

**PROPAEDEUTICS OF INTERNAL MEDICINE
INDEPENDENT STUDENTS WORK TIMETABLE
FOR III^d YEAR HIGHER MEDICAL EDUCATION APPLICANTS
OF MEDICAL SCHOOL V.N. KARAZIN KHARKIV NATIONAL
UNIVERSITY
FOR AUTUMN SEMESTER 2020-2021 ACADEMIC YEAR**

Gr: 307-312

Gr: 313-318

Gr: 319-324

Gr: 301-306

№	Topic	Hours	Date
Section 1: Introduction to internal medicine. Basic rules of patient interviewing and examination			
1.	Theoretical preparation for practice and mastering methods of physical examination of the patient: Interviewing of patients with disorders of internal organs	1	07/09/20 14/09/20 21/09/20 28/09/20
	General inspection of the patient, review of individual body parts: head, neck, trunk and extremities, thorax, abdomen).	2	07/09/20 14/09/20 21/09/20 28/09/20
Section 2: Cardiovascular system			
1.	Preparation for practice - theoretical and working methods of physical examination of the patient: Palpation of pericardial area	2	07/09/20 14/09/20 21/09/20 28/09/20
	Determine the properties of the pulse	2	07/09/20 14/09/20 21/09/20 28/09/20
	Percussion and the relative cardiac dullness	2	07/09/20 14/09/20 21/09/20 28/09/20
	Heart auscultation	2	05/10/20 12/10/20 19/10/20 26/10/20
	blood pressure measurement technique	1	05/10/20 12/10/20 19/10/20 26/10/20
2.	Mastering the skills of instrumental examinations:		

	- ECG and PCG registration	2	05/10/20 12/10/20 19/10/20 26/10/20
3.	Mastering the ability to analyze:		
	- electrocardiographic, phonocardiographic and others examinations data	2	05/10/20 12/10/20 19/10/20 26/10/20
4.	Individual study topics not included in the plan of classes		
	- ECG registration and decoding	2	05/10/20 12/10/20 19/10/20 26/10/20
	- ECG studies in cases of combined cardiac arrhythmia	2	05/10/20 12/10/20 19/10/20 26/10/20
5.	Supervision of patients with the writing of anamnestic part of the case history	2	02/11/20 09/11/20 16/11/20 23/11/20
6.	Independent ECG registration, participation in instrumental research of special patients with data processing and presentation at the lesson	2	02/11/20 09/11/20 16/11/20 23/11/20
7.	Pre-auditorium theoretical training for practical classes		
	- The acquired heart defects (tricuspid and pulmonary valves disorders)	2	02/11/20 09/11/20
	- pulmonary hypertension syndrome	2	16/11/20 23/11/20
Section 3: Rerspiratory system			
1.	Preparation for practice - theoretical and working methods of physical examination of the patient:		
	- Palpation of the chest	2	30/11/20 07/12/20 14/12/20 21/12/20
	- Comparative and topographic percussion	2	30/11/20 07/12/20 14/12/20 21/12/20
	- Auscultation of the lungs	2	30/11/20 07/12/20 14/12/20 21/12/20
2.	Instrumental methods of the respiratory organs examination:		
	Spirography and pneumothachometry	2	30/11/20

			07/12/20 14/12/20 21/12/20
3.	Capturing the ability to analyze:		
	results of the study of the function of external respiration	2	30/11/20 07/12/20 14/12/20 21/12/20
Total Hours			38

Approved at a meeting of the Department of Propaedeutics of Internal Medicine and
Physical Rehabilitation
protocol № 27.08.2020

Head of Department, PhD,

M. S. Brynza

№	Topic	Hours	Date
Section 1: Introduction to internal medicine. Basic rules of patient interviewing and examination			
1.	Theoretical preparation for practice and mastering methods of physical examination of the patient: Interviewing of patients with disorders of internal organs	1	24/09/20
	General inspection of the patient, review of individual body parts: head, neck, trunk and extremities, thorax, abdomen).	2	24/09/20
Section 2: Cardiovascular system			
1.	Preparation for practice - theoretical and working methods of physical examination of the patient:		
	- Palpation of pericardial area	2	24/09/20
	- Determine the properties of the pulse	2	24/09/20
	- Percussion and the relative cardiac dullness	2	22/10/20
	- Heart auscultation	2	22/10/20
	- blood pressure measurement technique	1	22/10/20
2.	Mastering the skills of instrumental examinations:		
	- ECG and PCG registration	2	22/10/20
3.	Mastering the ability to analyze:		
	- electrocardiographic, phonocardiographic and others examinations data	2	22/10/20
4.	Individual study topics not included in the plan of classes		
	- ECG registration and decoding	2	19/11/20
	- ECG studies in cases of combined cardiac arrhythmia	2	19/11/20
5.	Supervision of patients with the writing of anamnestic part of the case history	2	19/11/20
6.	Independent ECG registration, participation in instrumental research of special patients with data processing and presentation at the lesson	2	19/11/20
7.	Pre-auditorium theoretical training for practical classes		
	- The acquired heart defects (tricuspid and pulmonary valves disorders)	2	28/10/20 04/11/20
	- pulmonary hypertension syndrome	2	11/11/20 18/11/20
Section 3: Rerspiratory system			

1.	Preparation for practice - theoretical and working methods of physical examination of the patient:		
	Palpation of the chest	2	17/12/20
	Comparative and topographic percussion	2	17/12/20
	Auscultation of the lungs	2	17/12/20
2.	Instrumental methods of the respiratory organs examination:		
	Spirography and pneumothachometry	2	17/12/20
3.	Capturing the ability to analyze:		
	results of the study of the function of external respiration	2	17/12/20
